

DESIGNING SOLUTIONS

About Core One

Our goal is to provide our clients with high-quality products and an exceptional level of service to meet and exceed their expectations, no matter how big or small the project may be.

Serving the US and Canada

Founded in 2012, with main offices in Surrey, Phoenix and Seattle along with satellite offices strategically placed across the country.

Experienced Team

Our team consists of industry professional in management, engineering and site acquisition. Together we bring the perfect blend of expertise and experience to any project.

Get real time updates with our program management tool

- ✓ Keep updated throughout the entire project.
- ✓ Proven to accelerate and organize projects.

Providing clients with accurate forecasting and real-time updates along with access to all site documentation at their fingertips, this innovative tool helps Core One streamline sites throughout the site acquisition and engineering phases providing expedited delivery and complete transparency.

Advanced engineering & charging station designs

Electrical Vehicle (EV) Charging Station Services

- Location Planning and Identification
- Site Acquisition
- Engineering and Charging Station Designs
- Construction Management

Meeting Extreme Demands

Our EV charging station services allow us to help our clients in the US and Canada handle the extreme demand in the growth of their charging station network needs. Our team provides experience and expertise in both solar and grid-tied EV charging stations.

Solar & Grid-Tied EV Charging Station Services

Core One Consulting offers support to all clients who are looking to manage specific site requirements for EV charging stations, such as surveying, Geotech, environmental and archeological studies, community consultation, and concurrence. Our team also offers the following services for solar and grid-tied EV charging stations:

- ✓ Planning Site Location
- ✓ Site Identification, Validation, and Due Diligence
- ✓ Site Acquisition Services (Negotiations with Property Owners, License, Leasing, and Right of Way Agreements)
- ✓ Detailed Site Plan Creation
- ✓ Local Government and Utility Company Coordination
- ✓ Engineering Electrical Designs
- ✓ Engineered Detailed Drawings
- ✓ Obtaining Permits
- ✓ Construction Management Services
- ✓ As-Built Drawings and Closure Handing Over to Operations
